

CALL FOR PAPERS

Annals of Operations Research

(SCI Indexed)

A SPECIAL VOLUME ON
Multiple Criteria Decision Making and Operations Research
in association with the 20th International Conference on
Multiple Criteria Decision Making (www.MCDM2009.cn)

The International Society on Multiple Criteria Decision Making (MCDM) has played an important role in the development of the MCDM field. As of today, it has about 1470 members in 87 countries. Since 1975, the Society has been organizing biannually The International Conference on Multiple Criteria Decision Making. The conferences have served as a global forum for sharing original research results and practical development experiences among researchers and applications developers from such different multiple criteria decision making related areas as multiple criteria decision aiding, multiple criteria classification, ranking, multiple objective continuous and combinatorial optimization, multiple objective metaheuristics, multiple criteria decision making and preference modeling, and fuzzy multiple criteria decision making. The theme of the 20th MCDM, which will be held in June 2009, is "New State of MCDM in the 21st Century."

This special volume of the *Annals of Operations Research* seeks articles from researchers and practitioners from all related Disciplines of MCDM. Topics of interest include (but not limited to) the following:

- analyzing and evaluating of incompatible criteria and alternatives;
- modeling decision makers' preferences;
- developing MCDM-based decision support systems;
- designing MCDM research paradigm;
- identifying compromising solutions of multi-criteria decision making problems.

Manuscripts must be original, previously unpublished, and not currently under review in other journals. They may be extensions of papers presented at the conference or other topically pertinent papers, even if they are not presented at the conference. To be considered for this special volume, the manuscript must be received by **July 31, 2009**. Each manuscript will be subjected to extensive peer review according to the high standard of the *Annals of Operations Research*.

Electronic submission is required. Instructions for authors can be found at <http://www.springer.com/journal/10479/submission>. When submitting a manuscript, please select "S.I.: Mult. Criteria Decision Making..." as the article type.

Special Issue Editors (Aphabetically ordered):

Dr Yi Peng (**Managing Guest Editor**)

Associate Professor

School of Management and Economics

University of Electronic Science and Technology of China

No 4, Sec 2, North Jianshe Rd

Chengdu, P.R. China, 610054

Tel: +86-13881732889

Fax: +86-2883208808

Email: pengyi@uestc.edu.cn

Dr Yong Shi

Professor

Graduate University of Chinese Academy of Sciences, China

No 80 Zhongguancun East Rd,

Haidian District, Beijing 100080, China

Tel: +86-13501093251

Fax: +86-10-82680684

E-mail: yshi@gucas.ac.cn

and

Charles W. and Margre H. Durham Distinguished Professor

University of Nebraska at Omaha, USA

282 D PKI

College of Information Science and Technology

Omaha, Nebraska 68182-0572 USA

Phone: +1 (402) 554 - 3652

Fax: +1(402) 554 - 3400
